New Ratio Hub Script for Blox Fruits – Xmas 2025 Update

Radio Hub is one of the most popular Roblox games today, attracting millions of players. There are countless scripts available online to enhance your gameplay, but after the Dragon update, many of these scripts stopped working.

One **Blox script** that was widely used, called RedSub, was affected by this update as well. However, there's good news: RedSub has released a new script, and it's not the only one.

With the Dragon update introducing a lot of new content, including the **Dojo Trainer Quiz, Prehistoric Aizen, Dragon Race V4**, and more, players have been searching for working scripts to help them complete these tasks.

If you're looking to get ahead in the game and make the most out of the new Dragon update, you need to check out the RatioHub script. Unlike RedSub, HohoHub, or SpeedHubX, RatioHub is a brand-new script that was just released. This script has gained a lot of attention because it works perfectly with the latest Dragon update.

In this guide, we will share with you a working Ratio Hub script for Blox Fruits. We'll also explain how you can execute or run it using the Delta exploit so you don't miss out on any of the exciting new features introduced in the Dragon update.

With the RatioHub script, you'll be able to easily complete the tasks that were made more challenging by the update. Whether it's beating the Dojo Trainer Quiz, finding Prehistoric Aizen, or racing through Dragon Race V4, this script will make everything much easier and faster.

So, if you're ready to take your Blox Fruits experience to the next level, keep reading and learn how to use the RatioHub script. By following our step-by-step guide, you'll be all set to enjoy the game like never before.
